DISCLAIMER

This Synthesis Report has been produced by the European Migration Network (EMN), which comprises the European Commission, its Service Provider (ICF and the Odysseus Network) and EMN National Contact Points (EMN NCPs). The report does not necessarily reflect the opinions and views of the European Commission, EMN Service Provider or the EMN NCPs, nor are they bound by its conclusions. Similarly, the European Commission, ICF and the EMN NCPs are in no way responsible for any use made of the information provided.

The Focussed Study was part of the 2014 Work Programme for the EMN.

EXPLANATORY NOTE

This Synthesis Report was prepared on the basis of National Contributions from 27 EMN NCPs (**Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Poland, Portugal, Slovak Republic, Slovenia, Spain, Sweden, the United Kingdom and Norway**) according to a Common Template developed by the EMN and followed by EMN NCPs to ensure, to the extent possible, comparability.

National contributions were largely based on desk analysis of existing legislation and policy documents, reports, academic literature, internet resources and reports and information from national authorities and practitioners. Statistics were sourced from Eurostat, national authorities and other (national) databases. The listing of Member States in the Synthesis Report results from the availability of information provided by the EMN NCPs in the National Contributions.

It is important to note that the information contained in this Report refers to the situation in the above-mentioned (Member) States up to and including 2014 and specifically the contributions from their EMN National Contact Points. More detailed information on the topics addressed here may be found in the available National Contributions and it is strongly recommended that these are consulted as well.

EMN NCPs from other Member States could not, for various reasons, participate on this occasion in this Study, but have done so for other EMN activities and reports.

Source: National Reports 2009-2013 data, Eurostat 2014 data (extracted on 23rd April 2015)

Notes: * Austria also provided data on the Total number of self-declared unaccompanied minors applying for asylum, these are accordingly: 1,185 (2009); 934 (2010); 1,346 (2011); 1,781 (2012); 1,187 (2013).

** Belgium also provided data on the Total number of self-declared unaccompanied minors applying for asylum, these are accordingly: 935 (in year 2009); 1,081 (in year 2010); 2,020 (in year 2011); 1,546 (in year 2012); 679 (in year 2013).

*** Poland provided data on applications for international protection submitted by self-declared unaccompanied minors and by minors considered to be UAMs. In fact, in most cases the applications were submitted by minors who arrived in Poland being accompanied by their relatives. Minors who arrived in Poland alone are in a minority (according to estimations made by the Office for Foreigners, this is less than 30 minors yearly). Only these true UAMs make use in fact of the procedural and reception arrangements which have been described in the National Report.

Notes: ^{*} Data in Italy refer to UAMs who have not applied for asylum, including victims of trafficking (or other vulnerable children).

^{**} Data in Latvia concern foreigners who do not submit an application for asylum and claim to be minors.

^{***} In the Slovak Republic, the data reflect all identified UAMs (who are known to authorities/ institutions) who were not in the procedure for international protection.

² In practice in some Member States, e.g. Finland, Sweden, all third-country national UAMs apply for asylum.

³ Approximate number of UAMs NOT applying for asylum in the (Member) State in each reference period, provided by the Police

⁴ For 2009, the number of unaccompanied minors NOT applying for asylum could be incorrect, because data provided by Ministry of Labour and Social Policy do not report the number of non-asylum seeking UAMs that were untraceable.

⁵ Data are provided by the Refugees Reception Centre and Migration Department (when UAMs were accommodated not in RRC but other institutions, e.g. orphan homes).

⁷ UAMs who have permits for minors can convert this permit into a residence permit for custody and may be assigned to the Magistrate for Public Guardianship.

⁸ According to Italian law, all UAMs are entitled to a residence permit for minors which is valid until they turn 18.

Notes: * In Finland, all figures presented above concern UAMs who absconded prior to first decision. All UAMs were considered as being below the age of 18. However, the age was disputable in some cases and not necessarily confirmed/ assessed before the disappearance.

** UK provided data on those recorded as asylum-seeking UAMs that have gone missing prior to first decision, but they may be over 18 and this does not mean they are permanently missing.

⁹ Data are not monitored in the Slovak Republic.

Notes: The data provided is at the end of the year and not the total per year, except in Finland and the Slovak Republic. For the UK, the data relate to a snapshot collected on 31st March for each year, and are rounded to the nearest 10.

* Numbers only refer to UAMs who receive basic welfare support in Austria.

** Data in Croatia only refer to UAMs in the care of the social welfare institutions (children's homes).

*** In Spain, the figures relate to actual numbers of minors in the care of the social protection services for minors on 31st December. The data was provided by the Regional Authorities in Spain and may be incomplete, as it is not always possible to obtain information from all Regional Authorities in Spain.

¹⁰ France also provided data for this indicator, however, in France it is only since 1st June 2013 that the collection of these data has been harmonised. The number of young people in the care of the Child Welfare services between 1st June 2013 and 30th April 2014 is 3,734.

¹¹ Number of UAMs placed in foster homes.

*** *The UK does not produce an exact figure for the number of children looked after in the UK because each of the UK's four nations differ in the way they collect and publish their statistics. Currently only the Department of Education publishes data on Unaccompanied Asylum Seeking Children (UASCs) in England:* https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/264456/SFR36_2013_NationalTables.xlsx.

** The UK does not produce an exact figure for the number of children looked after in the UK because each of the UK's four nations differ in the way they collect and publish their statistics. Figures are rounded to the nearest 10 (so totals may not match individual categories when summed). Currently only the Department of Education publishes data on Unaccompanied Asylum Seeking Children (UASCs) in England:

Table A2.1 Documents required by Member States for asylum seeking UAMs

Member States	Documents			Additional information
	Visa	Passport	Other travel documents can be regarded as equal to passport	
Austria	√	√	√	
Belgium	√	√	√	
Bulgaria	√	√	√	No visa is required when it is provided for in Regulation (EC) N° 539/2001 Council in other EU acts by binding in an international treaty to which Bulgaria is a party, or the Council of Ministers, where the alien has a valid permit for continuous, long-term or permanent residence in the Republic of Bulgaria. Holders of Schengen visas and residence permits are entitled to enter and reside in Bulgaria for a period of not more than three months in any six-month period from the date of first entry without having Bulgarian short-stay visa. Bulgaria has bilateral visa agreements and arrangements with other countries that have certain special conditions for entry of citizens agreed countries. For example, the Republic of Bulgaria has concluded visa agreement with Turkey, in which the citizens of Bulgaria enter the territory of Turkey without a visa for up to 90 days.
Croatia	NI ¹⁴	NI	NI	
Cyprus	√	√	√	In theory they have to provide documentation; however, the relevant authorities cannot refuse the entrance to a person that declares himself/herself as minor.
Czech Republic	√	√	NI	In principle, documents are required but if a foreign national applies for international protection at a border crossing point, they are given a card for a seeker of international protection.
Estonia	NI	NI	NI	A person cannot legally enter Estonia, if he or she does not have the documentation required in State Borders Act (§ 11 ¹). Therefore unaccompanied minors are subject to immigration legislation, however in practice such minors may be permitted entry. Thus, if it is accepted by the Border Guard Officer at the border that the person concerned is potentially a minor, then he/she will not be refused, even in the absence of documents.
Finland	√	√	√	Asylum seekers are allowed to remain in Finland despite not having documents.
France				Applicants for international protection are not required to present the documents requested by the legislation – in particular passports and visas – to enter France. If they arrive by rail, sea or air, minors seeking asylum may, however, be held in a waiting area for the time strictly necessary to examine the application for asylum and determine that it is not manifestly unfounded.
Germany	NA	NA	NI	No documentation required. Border authorities are obliged to notify Youth Welfare Office
Greece	√	√	√	No differentiation mentioned between asylum and non-asylum seeking
Hungary	√	√	√	However, a minor may not be refused entry to Hungary

Member States	Documents

Ireland				While unaccompanied minors are subject to immigration legislation, in practice such minors are always permitted entry. Therefore if it is accepted by the Immigration Officer at the border that the person concerned is potentially a minor, then he/she may not be refused, irrespective of what documents are held.
Italy	NA	NA	NA	
Latvia	√	√	√	A person cannot legally enter Latvia, if he does not have the documentation prescribed in Article 4 of the Immigration Law.
Lithuania				A person must produce at the border the documents referred to in Article 5 of the Schengen Borders Code. This provision does not apply to aliens who have applied for asylum in Lithuania.
Luxembourg	√	√	√	
Malta	√	√		
Netherlands				
Poland	√	√	NI	In principle foreigners are required to provide documents. However, persons seeking international protection, including UAMs cannot be refused entry. The authority receiving the application for refugee status shall grant the applicant a provisional identity certificate, valid for a period no longer than 6 months, until completion of proceeding for granting refugee status. This certificate entitles its holder to stay in the territory of the Republic of Poland.
Portugal	NI	NI	NI	
Slovak Republic	√	√	√	The Slovak Republic may apply softer provisions of the Code, according to which "third-country nationals who do not fulfil one or more of the conditions laid down in paragraph 1 may be authorised by a Member State to enter its territory on humanitarian grounds, on grounds of national interest or because of international commitments.
Slovenia	NI	NI	NI	
Spain	√	√	√	
Sweden	√	√	√	In principle, they are required to provide documentation. However, if a UAM arrives at the border, or is apprehended or makes himself/ herself known to the authorities within Sweden, s/he will not be denied entry or be expelled immediately even in the absence of the travel documents mentioned. If the minor wants to apply for international protection, the Swedish Migration Board will be contacted.
United Kingdom	√	√	√	Persons arriving in the UK, including children, are required to present, to a Border Force officer, a valid travel document and the requisite visa, where one is required. An unaccompanied child who does not present valid documentation on entry, and claims asylum, will not be refused entry on arrival.
Norway				A person seeking asylum is not required to present any documents.
